THE RALEIGH NEWS

VOL. XIV—NO. 104. RALEIGH, N. C. FRIDAY MORNING JANUARY 3, 1879. $5.00 PER ANNUM

Just where intoxication begins has always been a delicate point, especially in the courts, which have been for many yeas wrestling unsuccessfully with the great question—Does lager beer intoxicate? In a late trial, however, a legal luminary has shed a flood of light upon the subject by giving it as his opinion that a man is not drunk "unless he is unable to find his way home."

Georgia proposes to issue certificates of indebtedness of very low denomination and receivable for taxes. It is expected that these certificates will circulate as currency. If they are issued with this object in view they must be regarded as "bills of credit," the issue of which is prohibited to the States by the Federal Constitution.

The troubles in Breathitt county, Kentucky, which have caused so much trouble and bloodshed there, now seem to be about ended, by the presence of State troops. The courts have resumed their sway again, and it is presumable that the lawless men who have terrified the country will meet condign punishment.

The debt of Tennessee is at present $25,000,000, and bears so heavily on taxyayers that actual repudiation has been suggested as possible. It is said that the Governor, when the Legislature meets, will recommend that the debt be scaled at sixty cents on the dollar, with 4 per cent, which will probably be accepted by the Legislature and the bondholders.

In commemoration of the death of William Cullen Bryant, the New-York Historical Society held a meeting Monday evening in the Academy of Music. Among the large and brilliant audience were the President and Mrs. Hayes, Vice-President Wheeler, Secretary Evarts, Attorney-General Devens General Sherman, and many other prominent persons. The memorial address was delivered by George William Curtis. A resolution of thanks to the orator, proposed by President Barnard and seconded by Rev Dr. R. S. Storrs, was adopted. After the meeting a reception was given to President Hayes at the residence of Frederick de Peyster.

RESUMPTION.

Equality of Greenbacks and Gold---No Excitement in New York---Slight Demand for Coin

By Telegraph to the News.

NEW YORK, Jan 2.—In an interview with a representative of the Associated Press to-day, General Hillhouse, United States Sub-Treasurer, stated that resumption, so far as the working of his office was concerned, had been attended by a most gratifying success, and that there appeared to be no demand for coin, the payments thereof in exchange for paper being very insignificant. Up to two o'clock the Sub-Treasury had received over $500,000 in gold, in exchange for which was issued legal tenders and certificates of deposit, while on the other hand it was estimated that the disbursement of coin for the day would not amount to over $25,000.

The Chamber of Commerce to-day adopted resolutions felicitating the community upon resumption, congratulating Secretary Sherman upon the success of his policy, in recognizing the action of the city banks in co-operating with the Treasury, and thanking Congress for the establishment of the national banking law. A resolution was also adopted calling upon Congress to avert the danger attending the adoption of silver as a measure of values, by amending the existing law so as to further limit the coinage of the silver dollar and its use as a legal tender. Copies of these resolutions were ordered to be sent to the Senate and House of Representatives, and also to Secretary Sherman.

PHILADELPHIA, Jan. 2.—The resumption of specie payments in this city caused no stir whatever. Inquiry at the prominent banks shows that the demand for gold up to noon to-day was very limited.

CHICAGO, Jan. 2.—There is little in Chicago financial circles to mark the advent of resumption day. The principal event of importance at the Sub-Treasury has been a largely increased demand for 4 per cent. Government bonds. The demand for gold is confined to very few cases, the majority of applicants preferring currency. At the Custom-house duties are being paid in greenbacks. There is no flurry at the banks, and no general or even perceptible inquiry for coin over the counter.

Caleb Cushing's Illness.

By Telegraph to the News.

NEWBURYPORT, Jan. 2.—Caleb Cushing has failed rapidly during the last 24 hours, his stomach now refusing all nourishment. His friends are hopeless, fearing the end is near.

Desperate Thievery.

By Telegraph to the News.

BOSTON, Jan. 2.—A bold attempt was made last evening to rob the jewelry establishment of N. G. Wood & Son, on Washington street. Robbers entered the store by breaking through the skylight and bound and gagged the only inmate of the place.

Brotherly Hate, not Love.

By Telegraph to the News.

NEW YORK, Jan. 2.—Jno. and Edward Wynne, brothers, were found by the Brooklyn police fighting this morning. John's skull was fractured and he is in a dangerous condition. His brother is under arrest.

The British Iron Trade.

By Cable to the News.

LONDON, Jan. 2.—Great excitement has been produced in the engineering trades, regarding a resolution of the London Iron Trades Employers' Association, to increase the number of working hours. The employers' Association will meet Tuesday next to arrange the preliminaries for the resumption of fifty-seven and a half hours as the weekly quota of labor.

District meetings of operative engineers have been arranged to pronounce the opinion of the workmen on the question of resistance.

Outside trades of the Union stand a very large number of non-society men, and it appears from what transpired yesterday at the informal meeting of workmen, that the following precedent made in 1871, when the non-unionists, for the most part, acted with the unionists, the former will adopt a policy of resistance. It is stated that the decision of the employers will depend to some extent on the result of an arbitration on the proposed reduction of five per cent in the wages of the iron workers, which has been commenced at Darlington. An award of the arbitrators is expected to be received by the end of the present week. So that the Iron Trade Employers' Association will have a decision before their conference next Tuesday.

The Amalgamated Society of Engineers has, according to the last annual report, a quarter of a million pounds sterling in hand. It is recognized as a Union which numerically and financially leads all other trades unions of the Kingdom.

NEW ENGLAND GREENBACKERS.

They Hold a Mass Convention for the Campaign---Organization---Inharmonious Action.

By Telegraph to the News.

BOSTON, Jan. 2.—About one hundred delegates of the Greenback party, from the several New England States, met here to-day to discuss the best method for conducting the campaign, and Alexander Troupe, of New Haven, called the meeting to order. S. C. Bancroft, of Peabody, Mass., was made chairman, and Noah D. Payne, of Providence, Secretary.

After an address by Carl Mohr, of Worcester, who favored a financial system similar to that of France, a resolution favoring the forming of some greenback organization, in which all the New England States shall be represented, was adopted.

There was a lively discussion of a second resolution to the effect that a committee of two from each State be appointed to report a plan for the organization of a New England League.

The labor element desired some recognition in the name of the organization. A proposition being made to call it the National Greenback Labor Party of New England, the second resolution was finally adopted, but the vote by which it passed was reconsidered.

Wendell Phillips made an address, in which he said he had endeavored to form a labor party, but it could not be done, and he was glad of it.

A motion to reconsider was then lost.

The Convention adjourned till two o'clock.

Choosing Bulgaria's Ruler.

By Cable to the News.

LONDON, Jan. 2.—A Vienna despatch to the Times says: "As the time for the election of the Prince of Bulgaria approaches fresh candidates make their appearance. Prince Vogorides, who, although belonging to a Greek family, claims Bulgarian descent, has been put forward, and it would not be surprising if an attempt should be made by the Porte and the Greeks in Constantinople to set up Prince Vogorides against the Russian nominee. But Prince Dondoukoff Korsakoff, the present Russian Governor of Bulgaria, according to all accounts, has taken care to be the master of the Bulgarian Assembly and make it elect whom Russia pleases. The Assembly has not been elected by a direct vote of the population, but by an indirect election, and care has been taken that a large proportion of the members of the Assembly should be persons holding official positions under the Russian government. Prince Battenberg is said to be a candidate, put forward by Russia, but there are those who believe that some one else is kept in reserve.

The Glasgow Bank Again.

By Telegraph.

LONDON, Dec. 31.—Developments respecting the settlement of the affairs of the City of Glasgow bank are very unfavorable. The liquidators made a preliminary report to-day of the result of their labors thus far. They have received £691,893 up to yesterday from the shareholders, upon whom rests the burden of paying the debts of the bank. Of this sum £56,372 represent payments on second instalments. It now begins to be feared that a great majority of the shareholders will be found to be utterly unable to pay even one-tenth of the part of their share of indebtedness. The secretary of the bank, who has been imprisoned in the Glasgow jail since he and the manager and directors were committed for trial, has given to the Lord Advocate much important information concerning the transactions of his fellow-officers, and on their trial at the approaching assizes he will be used as a witness for the Crown. He has been liberated *ad interim* for this purpose. Public feeling is very strongly excited against the directors, and their condemnation is thought to be certain. Their families are plunged into deep distress.

Shot Down in the Street.

By telegraph to the News.

CINCINNATTI, Jan. 2.—A special dispatch says, at a late hour last night, a man named Anthony Doemeer was walking up Gratiot Avenue, Detroit, Mich., on his way home, when a sleigh containing three men came tearing along at a rapid rate. When opposite Doemeer one of the occupants drew a revolver and fired. The ball entered Doemeer's left thigh and taking an upward course penetrated the lungs. The wounded man sank to the pavement while the sleigh dashed on. One of the party crying out: "How 's that for happy new year?" A policeman hearing the shot, come to Doemer's assistance. A surgeon probed for the bullet unsuccessfully. Internal hemorrhage set in, and the man will probably die.

English Commercial Failures.

By Cable to the News.

LONDON, Jan. 2.—The number of business failures, officially announced in the Kingdoms of Great Britain and Ireland, during the year 1878, were 15,059, of which 2,643 were in the financial and wholesale and manufacturing branches of trade; 12,416 in the retail trades, professional pursuits, builders, publicans, working classes, etc., against 1,272, and 8,850 under respective headings in 1877, showing an increase of 4,037 failures last year over the preceding year.

WASHINGTON.

Latest News from the Capital---Another Robbery---Examining Books of Revenue Collections.

By Telegraph to the News.

WASHINGTON, D. C., Jan. 2.—Ten thousand dollars was stolen from the safe of the Disbursing Clerk at the Government printing office to-day. That amount had been drawn for paying employes and purchasing material. The safe door was left open and the robbery was accomplished with comparative ease.

The Internal Revenue Commissioner has issued a circular to Collectors, announcing that immediately after the close of the present fiscal year, an examination of all collectors' officers will be made, to ascertain whether the public business has been accounted for according to law, and whether the public funds have been duly accounted far.

The President has received a copy of the resolution passed by the Teller Committee requesting him to furnish to the committee all information in his possession relative to any violation of the rights of citizens of the State named in his annual message. The President has sent the resolution to the Attorney General for response.

To meet the inconvenience to merchants caused by the discontinuance of the issuing of coin certificates, it has been determined to issue such certificates for the special purpose of paying customs duties until Congress can act upon the matter.

Secretary and General Sherman left here to-night for Cleveland, Ohio, to attend the funeral of their brother, Judge Sherman, in that city on Saturday.

Subscriptions to the four per cent. loan to-day were larger than ever before. This is probably on account of the recent circular allowing commissions on subscription for said bonds. Up to 2 o'clock this afternoon subscriptions aggregated about $9,000,000.

The debt statement issued to-day shows an increase during December of $1,233,785; coin in treasury $224,865,777; currency $4,515,550; currency held for redemption fractional currency $10,000,000; special deposit held for redemption of certificates of deposit $34,515,000.

The copying clerks of the Attorney General's office have been engaged for several weeks copying reports of U. S. Marshals, District Attorneys and others in South Carolina and Louisiana, in regard to the alleged Southern outrages. These copies were made to be transmitted to the Senate, in reply to a resolution of that body, adopted on the the 9th of December, calling upon the President for copies of reports of United States marshals and other affidavits relative to the recent elections in South Carolina and Louisiana. Since the adjournment for the holidays, the Teller investigating committee having passed a resolution calling upon the President and Attorney General for information upon the same subject the Attorney General will probably forward to the committee the copies already made to be sent in response to the Senate resolution. These documents are copies of reports from U. S. Marshals and other in the States named, reporting outrages, nearly all of which were published during the campaign preceding the recent elections.

The Rail Road System of Our State.

Correspondence of the NEWS.

As is well known, the design of the projectors of our State rail road system, was that there should be constructed a great trunk line from Beaufort harbor to the West, with feeders running off from this main line, thereby building up a large seaport and making the rail roads constructed in the State conduce to building up the State. We all know how signally their plans have failed, and this failure has not been because these plans were unwisely laid, but because the legislature of North Carolina has acted without wisdom and forecast.

We find now that the line of road from Morehead City to Charlotte, from Greensboro to Danville and from Wilmington to Salisby are under the control of a foreign corporation and are managed so as to divert both travel and traffic from the State, or in direct antagonism to the interest of the State. The lease of the N. C. Central to the Richmond and Danville was a most unwise and ruinous measure. The result is that a close connection between the N. C. Central and the Raleigh & Gaston cannot be had. A man reaching Raleigh at noon to-day, must lay over until to-morrow morning before he can continue his journey. We understand that the same difficulty exists at the intersection of the Air Line and the C. C. rail road. There are, as we understand the matter, three or four conflicting rail road interests in the State, each working against the other, and all working against the interest of North Carolina—all tending to divert to other States, travel and freights, which should pass through our State to markets within our State.

All of this state of affairs might have been prevented by wise action in the past. It may be too late now to recover some of the ground lost, but not all of it. We understand there are ample grounds for canceling the contract of lease of the Central to the R. & D. If so, this ought to be done at once and that road gotten under the control of the State and private stockholders. We think also that is entirely practicable for the State to control the Atlantic road, and by that means control the entire line. This is a measure of incalculable importance to the State and every honorable effort ought to be made to accomplish it. The Western extensions to the Georgia and Tennessee lines should be pushed to as rapid completion as possible, and then with a reglar line of steamers from Morehead City to England, and would have laid the foundation of great prosperity as a State. The Carolina Central and Western roads should be controlled in the interest of Fayetteville and Wilmington and made feeders to those places.

We are free to admit that there is some force in the assertion that travel and traffic will seek natural channels, and that men will ship their produce to the best market and buy in the cheapest, but we insist at the same time that it is within the power of wise legislation to open up markets and divest trade. We see the towns of Virginia and South Carolina have diverted from prominent points of trade in our own State, the bulk of our traffic. In many instances our trade built up their markets instead of their markets attracting our trade. They opened the channels and the current naturally flowed into them. With a more accessable if not more commodious harbor than Norfolk, there is no reason why cotton should not sell for as much at Morehead City as at the former place, and if the proper facilities are offered, capital will go there and to Wilmington and cotton find an outlet to Europe from those points. We believe it would be to the interest of the State to get control of the roads referred to above and put the tariff of freights so low as to force products to these points, and if the general government cannot be induced to do it, pay such an amount of subsidy as would secure a regular line of steamers to Europe. These may be regarded as wild and impracticable measures, but in our opinion they are feasible. Without bold and daring enterprise no great results can ever be accomplished. As a people we have been too slow and timid. We let opportunities slip out of our hands while we are considering whether we shall improve them. When the waters are troubled we let some one else step in before us.

As the matter now stands, with our railroads controlled as they now are, North Carolina is very much in the condition of Ireland, a country cultivated by an impoverished native population for the benefit of "absentees." Our vast productions are all poured into the markets of other States to build up and enrich other people, while our own towns are unpaired and unpaved, with their streets furnishing excellent pasturage for stock.

The need in our Legislature is men of brains and nerve, who will dare to wrest our State and her improvements from the hands of foreign corporations. We want men who will ignore the dead issues of a dead past and act in the living present, comprehending its mighty issues and interests and proving themselves competent to discharge the responsibilities which devolve upon them.

In this connection we desire to say further, that one of the greatest barriers to our prosperity is the extortionate charges for local freights. On this subject we can give facts and figures, and are very much inclined to do so. From all local points on our roads there is a feeling of indignation at the extortionate charges. We do not mean to say that the charge for local freights should be pro rata of through freights. We admit that where there are competing lines and bulk is unbroken the charges may very properly be made less than for local freights, but the difference now made is out of reason. It is also true that our roads, or rather the roads belonging to others, running across our State and which we are compelled to use, charge entirely too much for travel. We do not mean to say that they can afford to carry passengers as low as roads in some sections, but six cents a mile is entirely too high. We believe the roads would make as much, on account of the increase of the increase of travel, if they would charge three cents instead of six. A man prospecting for land or looking out for a place to settle, can travel all over the North and West for a mere song but when he comes to North Carolina he must bring a young bank with him or he will soon be out of money.

We think this is a matter which the Legislature should regulate. There is no doubt now but Legislatures have the right to regulate railroad charges, and the people demand it. We believe the men who own the stock in these roads would heartily approve such action on the part of our Legislature. We do not advocate action in the interest of the people as against railroads, but in the interest of justice and right, and as a means of advancing the general prosperity of the State. L.

No Better Capital than Politeness.

RALEIGH, N. C., Jan. 2d, 1879.

EDITORS NEWS—I note in your valuable paper of yesterday, a note as to the morality of the young gentlemen in our city Postoffice, which was well said, and they are certainly an example to other young men in the particulars mentioned; but will you allow an "old man," who has traveled much and been in many of our large cities North, South, East and West, to say that he ventures the assertion that there is not an establishment in this whole country where there is uniformly more politeness and courtesy to those who have business with it than these same fine young men always extend to the numerous customers they deal with every day. Politeness is now so rare, and especially so in public and government establishments, that when met with, as it is in our Postoffice, it should be specially commended. No young man ever started life with a better capital than politeness.

OLD MAN.

Interesting Discoveries.

Washington Post.

The lake dwellers are as interesting in their way as the cliff dwellers, and a new village of them has just been disclosed by the shrinkage of the waters of the lake of Bienne. Here they have left their footsteps on the sands of time in the shape of stone hatchets, flint lance-heads, arms of copper, etc. The experts declare this to have been the age of copper, sandwitched between the bronze and stone ages. In the skulls small pieces have been trepanned, which were used as amulets. Occasionally, as a happy thought, a bit of an infant's skull was put inside the heads of the dead to protect them from danger beyond death. Shall we be half as interesting to the people of the future as these are to us? And when they dig us up, with our good clothes and our decorative art, and count our bones and measure our skulls, and otherwise try to account for us, what sort of showing will get? Just now, probably, the paper collar is the most expressive index of civilization.

An Important Meeting.

Charlotte Observer.

No publication, of any kind whatever, could have as great influence upon the Northern mind, in convincing it of the exact social and political status of the South, with reference to Northern men who have settled here since the war, as will the publication of the proceedings of the meeting of Northern settlers which is called to take place in this city on the 15th inst. We conscientiously believe that this meeting will be fraught with great results to the South; in the very nature and constitution of the body it cannot be otherwise. Every Southern man should feel a personal interest in it, and every Southern news-paper should forward the enterprise by every legitimate means in its power. Will our Southern brethren generally give it still further of their aid and influence?

THE REVISED SCRIPTURES.

Completion of the New Translation of the New Testament---Difficulties of the Work---Anecdotes and Traditions of Scripture Translations---The Various English Versions of the Bible.

London News.

The revisers of the authorized translation of the New Testament are to be congratulated on having completed their second and final revision of the work. The labor of conscientious translation is never slight, and the toil is not altogether lessened by being shared. It is easier for one translator or revisor to make up his mind than for twenty-four persons to make up twenty-four minds. Let it be supposed that all the twenty-four are agreed that a certain received rendering will not stand—and to suppose this is to suppose a great deal. Then come the different views about the necessary emendation. One will not do because the style in which it is couched, though lucid enough, is not the style of the old version which is being amended. Another rendering may be disputed on those delicate points of scholarship in which Greek of every epoch is so uncommonly rich. A third version, perhaps, is accurate but clumsy. How are all the many minds of many men to be reconciled? The difficulty becomes greater when we remember that many American scholars collaborate with English Hellenists and divines. It is needless to say that while all these troubles would perplex revisors if they were merely amending such a translation as the "Plato" of the Master of Balliol, they beset revisors of a sacred text with vigor many times increased. Doctrine as well as scholarship is at stake, and we know how bitterly the two are at variance. In the fine old times, just before the reformation, the Greek of the Greek Testament was declared to be a heretical language. The Greek text did not always tally with the Latin; therefore the Greek was wrong.

ROUND THE VARIOUS TRANSLATIONS

and editions of the Bible has crystalized a romance or a mythology. Every one is familiar with the useful superstition of mediæval copyists, who believe that to make a blunder in the writing out of the Apocalypse was to commit an unpardonable sin. The Alexandrian copyist, who worked at writing in a spirit of commercial enterprise, did not look so close. If the early fragments of Homer on papyrus are any test of the accuracy of common copyists, they were more reckless than the most recklessly ingenious of priaters. Words are invented by the copyists out of pure indolent stupidity, and the task of keeping the text pure has been one to turn gray the hair of many generations of commentators. The myth about the miraculous agreement of the so-called seventy translators of the Septuagint was probably of Jewish origin. Each member of the seventy produced a separate version, and all the versions were equally correct. The story of the Sinaitic manuscript and its discovery is not less interesting than the fortunes of Villoison's "Marcian A." The *fata libellorum*, the romantic fortunes of all the books in the world taken together, would not make so moving a tale as the adventures of the books of the Bible alone. The record is not yet closed, and no one can be absolutely certain that older and better manuscripts than any yet known may not be mouldering in a cellar in Mount Athos or neglected in some corner of the Vatican, or hidden away in a monastery of the Armenian or the Coptic rite.

BELKNAP'S FAMOUS ORDER.

Regarding Army Officers in Washington Modified by Secretary Thompson.

An order modifying the celebrated order issued by Gen. Belknap, when Secretary of War, was issued Monday from the War department. The former order prohibited officers of the army from visiting Washington except by permission of the adjutant general, to whom the cause and length of time of the visit must be given. The following is the new order: "Officers of the army visiting the seat of government on leave of absence—or who may be stationed there—are at liberty to advocate or oppose, either verbally or in writing, any pending measure of legislation touching military affairs; but leaves of absence must not be granted to enable officers to visit the seat of government for the purpose of influencing legislation. Officers absent from the seat of government may send to Congress, or to members thereof, either directly or through military channels, any petition relating to pending legislation on military matters.

The Future of Afghanistan.

Gen. Brown, the British commander in Afghanistan, seems to have little of the diplomat in his composition. He has been telling the Afghan chiefs the truth, with all a soldier's bluntness. They are to look no longer to the Ameer as their ruler, but must turn to their future mistress, the Empress of India. There is an admirable directness about this statement. It fully dispels whatever of uncertainty diplomacy may have thrown around the future of Afghanistan. That country is to become a British bulwark against Russian approaches to India in the one certain and practical way—by annexation to the British dominions. All other suppositions are destroyed by Gen. Brown's address.

Our Immense Grain Shipments.

During eleven months of the present year the receipts of grain at the Atlantic ports have been 235,071,618 bushels, which is more than 50 per cent. greater than those of any previous receipts for any one year being 154,932,011 in 1876. The great bulk of this grain was shipped from the West, and it is to retain this vast trade that New York money is used to prevent the success of the efforts being made to send Western grain to Europe by the way of New Orleans and the jetties.

Gold or Paper.

The Washington papers tell a good story to show how little people care for gold when they know they can have it just as well as paper. One of the city banks that had been paying out gold for some time was entered by a darkey from one of the Southern States, who handed up a five dollar check to be cashed. "Gold or greenbacks?" said the busy cashier, laconically. "Gold, mass? What's dat you say?" said Sambo, his eyes extending till the whites alone were visible. "Do you want gold or greenbacks for your check?" explained the cashier. "Dis chile takes de gold, boss, every time." Two shining bits were handed out in shape and size very like the little yellow pennies, but each stamped $3.50. Sambo's face fell as they dropped into his palm. "Is these yer $5?" "Yes, that is $5—$2.50 each." Sambo walked out slowly, stopped on the sidewalk a moment, re-entered and said. "I say, boss, if you jess as soon Ise take de paper—Ise more use to it, and I lose these yere little fellahs, sure."

As he entered his yard his feet slipped on the frozen sleet, and he fell heavily, breaking his left arm near the shoulder....Our Register informs us that during the month of December he issued thirty licenses, 14 for whites, and 16 for negroes, which indicates an unusual degree of briskness in that line of business.

Many Facts in Small Compass.

The number of languages spoken is 2,065. The number of men is equal to the number of women. The average human life is about 33 years; one-quarter die before the age of 7. To every 1,000 persons one rarely reaches the age of 100 years and not more than one in 500 will reach the age of 80. There are on earth 1,000,000,000 inhabitants. Of these 33,333,333 die every year, 91,334 die every day, 3,789 every hour and 60 every minute. The losses are balanced by an equal number of births. The married are no longer lived than the single ones. Tall men live longer than short ones. Women have more chances of life previous to the age of fifty years, but fewer after, than men. The number of marriages is in proportion as 70 to 100. Marriages are more frequent after the equinoxes, that is, during the months of June and December. Those born in spring are more robust than others. Births and deaths are more frequent by night than by day.

Texas a Sheep-Raising State.

According to the Galveston News, Texas had in Jan. of the present year 3,674,700 sheep, ranking as the third wool-producing State in the Union, although having only about 100,000 less than Ohio, and about half the number of California. Nueces county alone has 656,000 sheep; and here the remarkable fact is presented that the most southerly county of the United States is the banner sheep county of the Union. The adjoining county, Starr, has 184,000 sheep, and these two counties have more sheep than Georgia, South Carolina, Florida and Louisiana together—more than the conjoined States of New Hampshire, Vermont, Massachusetts and Rhode Island.

Griffin's Free School Feast.

Newbern Nut Shell.

The regular annual feast to this school took place Saturday, the 28th of December, 1878, and long will it be remembered by the many boys and girls who were made happy on the occasion. By the kind liberality of a number of our citizens, a most bountiful feast was given to these children. At the ringing of the bell 53 boys and girls promptly responded to the call; and after singing that beautiful hymn, "Ring out the Bells for Christmas," and a blessing being asked, each one was furnished with one of Capt. Gray's famous wooden plates, and then the work began in earnest.

The long tables were lined with all the substantials, confectioneries, cakes, etc, and every one partook to the full extent of his ability. It would be difficult to have found a more happy set of children, and perhaps without this feast many of them would have had little or no enjoyment for Christmas. At the foot of the table was a huge holly tree, full of beautiful red berries and loaded down with presents. After the good things in the eating line had been disposed of, a distribution of the Christmas Tree presents were made, and the hearts of many a poor child was made glad in receiving a handsome toy or some more useful present in the way of clothing, shoes, etc. Doubtless these little children, from the bottom of their hearts thanked the kind donors, and particularly thanked Mrs. Hannah Harrison, Mrs. Jane Hughes, Miss Mary Oliver, Mrs. Nash, Miss Boyd, Mrs. McLean, Miss Jane and Miss Mary Ellis, Miss Mary Roberts, Mrs. Richardson, and Miss Daves, of Baltimore, who were present and did all in their power to make it a pleasant and happy time for the children. This school has been in uninterrupted operation for forty years, except for a few months after the close of the war. Previous to the war it was handsomely endowed, but the great bulk of property was lost by the failure of several of the State banks.

The number of scholars who are now taught free of all expense, averages forty, and we learn from Mr. William H. Oliver, who has charge of the property, that he will be enabled to keep up the school without any interruption so that forty or fifty children have an opportunity at all times to receive a good education free of education free of Moses Griffin, deceased.

THE CURE FOR GOSSIP.

A Vice that is Well Nigh Universal---Culture the Only Sure Antidote.

Everybody must talk about something. The poor fellow who was told not to talk for fear that the people would find out that he was a fool, made nothing by the experiment. He was considered a fool because he did not talk on some subject or other. Everybody must have something to say, or give up society. Of course, the topics of conversation will relate to the subjects of knowledge. If a man is interested in science he will talk about science. If he is an enthusiast in art, he will talk about art. If he is familiar with literature, and is an intelligent and persistent reader, he will naturally bring forward literary topics in his conversation. So with social and religious questions. "Out of the abundance of the heart the mouth speaketh." That of which the mind is full, that with which it is furnished, will come out in expression.

The very simple reason why the world is full of gossip is that those who indulge in it have nothing else in them. They must interest themselves in something. They know nothing but what they learn from day to day in intercourse with and observation of their neighbors. What these neighbors do, what they say, what happens to them in their social and business affairs, what they wear, these become the questions of supreme interest. The personal and social life around them—this is the book under constant perusal, and out of this comes that pestiferous conversation which we call gossip. The world is full of it, and in a million houses, all over the country, nothing is talked of but the personal affairs of neighbors.

What is the cure for gossip? Simply culture. There is a great deal of gossip that has no malignity in it. Good-natured people talk about their neighbors because, and only because, they have nothing else to talk about.

Gossip is always a personal confession either of malice or imbecility, and the young should not only shun it, but by the most thorough culture relieve themselves from all temptation to indulge in it. It is low, frivolous, and too often a dirty business. There are country neighborhoods in which it rages like a pest. Churches are split in pieces by it. Neighbors make enemies by it for life. In many persons it degenerates into a chronic disease, which is practically incurable. Let the young cure it while they may.

The Pope and the Catholic Cardinals.

Courier Journal.

The Pope proposes to have a full Sacred College of Cardinals, which for some years has fallen short of the prescribed number, seventy, owing to the repeated inroads of death. When full the Sacred College contains six Cardinal Bishops, fifty Cardinal Priests and fourteen Cardinal Deacons. A large number of the Cardinals are now very old, and the mortality has been heavy of late years, notwithstanding many new Cardinals have been created. The Pope will nominate twelve new members of the College soon, and it is reported that Ireland, England and the United States will be drawn upon. An Irishman will be appointed to fill the late Cardinal Cullen's place at Dublin.

Grant's Idea.

N. Y. Sun.

Two years in Europe have turned the head of Grant, and made him a confirmed believer in strong government and an imitator of the usages of kings and emperors. He hardly concealed this partiality for imperial grandeur in his interview with Prince Bismarck when he substantially expressed the opinion that obedience was the first duty of the subject, and resistance to hereditary tyranny could not be punished with too much severity. He had established a sort of shoddy court before he went abroad, and he will come back filled with the notion of setting up something more like the genuine article. He will expect the Republican party to accept him and to approve his coarse ambition."

DAILY NEWS

FRIDAY.....JANUARY, 3, 1879

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Street

The poor rates in England amount to the enormous sum of $40,000,000 annually. It is estimated that the public and private charities amount to as much more. Yet this is altogether inadequate to meet present demands.

AFTER many years of strenuous effort we have succeeded in almost driving English manufacturers out of our home markets. Perseverance will enable us, in a short time, to compete with England in all the markets of the world.

THE most prominent names in the mortuary list of the United States for 1878 are Gideon Wells, Benjamin F. Wade, William C. Bryant, Joseph Henry and Bayard Taylor. Five members of Congress have passed away in the same time—Messrs. Leonard, Welch, Quinn, Williams and Douglas.

S. M. Smalls ("Old Si,") of the Atlanta Constitution, was set upon by a crowd of ruffians in Atlanta on Christmas Day and most cruelly hurt. He made a gallant defense, but was struck down by persons who sought to punish him for something he had written. He now lies critically ill. The gentleman's many admirers, to whom "Old Si's" sententious sayings have given many a laugh, will be sorry to hear of his misfortune.

A COMPARISON of the favorable balance of trade for the first three quarters of the current year, with that of the same period for 1877, shows a result which is equally surprising and gratifying. The exports of merchandise show an increase over imports of $209,326,798, or an excess of $154,866,404 over the excess for the same period last year. This result comes from a reduction of over $48,000,000 on imports and an increase of over $106,000,000 on exports.

Among the other things which rendered the past year unpleasantly notable, was the commission of an unprecedented number of murders. The demoralization of the times and the outlets to escape from justice are responsible for the fact. There were also some of the most atrocious deeds committed which have ever created a sensation, and grave robbers, ravishers and incendiaries have struggled for prominence in the catalogue of evil deeds.

Our consul in Barcelona, Spain, is enthusiastic over the arrival of the firs cargo of American wheat at that port, about the middle of last month, and the impression it made upon the Spanish grain merchants. It was pronounced equal in quality to the best European samples, while it could be sold at a lower price. To bear out his statements the consul relates that not only the ship which brought the cargo, but also three other English ships were chartered to bring further samples to same place.

The effect of the circular recently issued from the Treasury, offering to ship the silver standard dollars to any one making a deposit of $1,000 or any multiple thereof, is already apparent in the increased orders which have been received at the Treasury during the past week. These coins will now, it is said, become general in circulation. Yet this is hard to believe, for in addition to the distrust of silver dollars, their bulk makes them not convenient to lug around. The people always look carefully at all large silver coins, whose recent depreciation makes them have smaller than face value.

A Washington correspondent states that a bill having for its object minority representation in Congress, will probably be introduced in the House soon after the re-assembling of Congress. The plan is so to divide each State into districts that the districts may as far possible be entitled to elect three or five members each, thus permitting the majority of the voters to elect two out of three or three out of five. In case the district is entitled to three representatives, each elector can vote for two candidates and no more. In case the district is entitled to five representatives, each elector can vote for three candidates and no more. Where a state is entitled to only two representatives, as in the case of Rhode Island and Florida, it is to be divided into two districts, each electing one members, as at present, as in this case majority and minority representation would be impossible. In cases where there is an odd representative after the State has been divided as nearly as possible into districts to be represented by three or five members, a separate district is to be set apart for this representative, who is to be elected as at present.

North Carolina's Territory and Resources.

There are very few people who fully realize the extent of the territory embraced in the State of North Carolina. A line long enough to reach from the extreme eastern to the western boundary of the State, if placed with one end at the northern border of the State, would extend across Lake Erie a hundred miles up into Canada.

Within this territory is embraced a greater variety of soil and climate, and capacity for a greater variety of productions than any other State in the Union. We once heard a very intelligent gentleman in Virginia say that North Carolina embraced the most desirable belt of climate and soil in America, and his statement was unquestionably true. Situated equidistant from the North and South, it is exempt from the extremes of heat and cold. With its eastern plain, granite belt and mountain region, it has every variety of soil, and is capable of every variety of production. Its mineral resources are unlimited, and no other State furnishes so great a variety. There is enough water power to turn the machinery of the world, and a large quantity of timber, and notwithstanding the sneers of wildings, there is no State possessing a better population. In every element of character which goes to make the true man and noble woman, North Carolina is abreast with the best. And yet this State, with so vast and varied resources, is scarcely known beyond her borders, and her great attractions not fully understood and realized by her own people. It is reported of a North Carolinian, that in an address in a city of another State, he said North Carolina was a glorious State to emigrate from. We never appreciated the wit of the remark because we denied the truth of the assertion. We believe that gentleman has returned again to North Carolina, and we think he has shown more sense in doing that than he did in making the remark referred to.

We wish we could lead our people to investigate and find out the real merits of our grand old State. We have no doubt there are men in the State to-day who are better informed about the topography, climate and soil of Bulgaria than of North Carolina. Men go to Europe, take the tour of the Continent and return, who never saw half the State; never visited our mountain region, abounding in scenery far exceeding that they traveled thousands of miles and spent thousands of dollars to see. Our children at school learn nothing from their geography about the State except that its staple productions are tar, pitch and turpentine, illustrated by a picture of some one getting turpentine out of a tree by driving a spout in it. Let us change all this.

MISCELLANEOUS.

SAVE YOUR HAIR! TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles of which the following is

A FAIR SPECIMEN.

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon

DAILY NEWS
[illegible]....JANUARY, 3, 1879

THE YEAR 1878.

Its Fates and its Fortunes--The Chronicle of Important Events --A Year of Evil Deeds.

Brooklyn Eagle.

Looking back at the more important events of 1878, we find it has been fuller of public and priuate losses than the last few years that preceded it. Yet these losses have been accompanied by hopeful signs. If yellow fever has ravaged a large portion of the South, it has aroused the people to those laws of health and proper drainage, the violation of which engenders these frightful epidemics. If through the breaking of banks and the depression of trade there has been an unwonted amount of suffering among the poor there hasperhaps never been a year when the rich have given assistance with so large a heart and so free a hand. Compared with the nations of Europe, the United States of America have been fortunate. Our industries are finding favor, more and more, in the Old World; no famine seems possible no agricultnral resources so vast as ours; and no wars, foreign or domestic, have disturbed "the even tenor of our way."

Taking a wider outlook, the first event of world-wide interest in the past year was the death of Pope Pius IY. on the 7th of February. He had completed a pontificate of more than thirty-one years, thus exceeding the traditional primacy of St. Peter by more than six years, and reigning many years longer than any in the long list of Sovereign Pontiffs. On the 20th of February Cardinal Pecchi was elected Pope on the third ballot, and the liberal and conciliatory policy he has pursued has done much to strengthen the loyalty of Catholic nations to the Church and to check the tendencies toward schism which prevailed before his election. Victor Emanuel had died a month before Pius.

Of other deaths and of assassinations, there has been a plethora. On the 14th of this month the most beloved and amiable of Queen Victoria's daughters, the Princess Alice, Grand Duchess of Hesse-Darmstadt, died of diphtheria. On the 19th our Minister to Germany, the popular Bayard Taylor, died suddenly at Berlin. On the same day one hundred and fifty lives were lost by the sinking of the steamship Byzantium, between Constantinople and Marseilles. The loss of the Emily Souder is still more recent and the total loss of life is still unknown. On the 25th of November the New York and Hamburg steamship, Pommerania, sunk by collision in the English Channel and fifty lives were lost. The British war vessel Eurydice sank off the coast of the Isle of Wight, on the 24th of March, and four hundred lives were lost. By a colliery explosion at Abecorn, England, on the 11th of September, 300 lives were sacrificed. On the 3d of the same month the greatest marine disaster of the year occurred on the Thames, when the Bywell Castle ran into the excursion steamboat, Princess Alice, and more than 600 persons were drowned. During the year poor old Tweed was released from imprisonment by death, after many years of vicarious atonement for the crime of his fellow conspirators as well as of personal expiation for his own. America has lost its most venerable post and England her oldest statesman during the closing year. George H. Lewes brought the mournful procession of departing worthies to a close. The death of Mercedes, the young and beautiful Queen of Spain, like that of the Princess Alice, created universal regret.

Of assassinations, beginning with those of the Earl of Leitrim and his two attendants on a high road in County Derry, Ireland, last April, there has been a terrible excess over previous recent averages. A woman was regarded as a heroine for killing the Russian Chief of Police. Communism spreading everywhere has organized murder. Twice has the life of the aged "Soldier King," the Emperor of Germany, been attempted. Plots have been discovered to murder the Czar of Russia, Francis Joseph of Austria and even the peaceful King of Denmark and Queen Victoria. The ex-President of the Peruvian Republic was butchered in broad daylight. The life of the promising young King of Spain was attempted, as was that of the new King Humbert the First of Italy.

In Canada there has been much regret at parting with Lord Dufferin, the most successful and the most popular of Governor Generals. But this regret has been tempered with pleasure at having the Princess Louise for the first lady of the Dominion and the heir of the Campbells of Argyll for the new Governor General.

The position of British India, the dangers threatened by Russia to its integrity, the prospects of Turkey, of Egypt, of Greece and other countries jeopardized by the late Russo-Turkish war have made the newspapers a greater daily necessity than ever to the American public. Now, as the year departs, poor Shere Ali, Ameer of Afghanistan, enlivens the telegraphic reports, reminding one by his precipitate retreats after so much sanguinary rhetoric as to what he would do to the British, of those warriors whom Macaulay tells of, who fired a volley, then shouted murder and ran away.

The Electric Light.

The electric light was introduced into one of the largest dry goods stores in Philadelphia on Thursday evening last, and the Telegraph of that city thus describes it: The light used last evening is known as the Brush Patent, and is very brilliant and piercing, and the contrast between the light and that produced by the gas jets was very marked. There were in use six dynamo-electric machines, each one of which was supplied with four globes, thus making twenty-four globes in all, the light from which was equivalent to 2,400 gas jets, at an average cost of less than $3 an evening. The goods displayed in the establishment last evening could be very readily distinguished under the electric light; especially was this the case with silks, ribbons, etc., whose colors are difficult to determine with gas-light. The light was under the control of Professor Edgerton, and much gratification was expressed by the large assemblage present at the success of the experiment. The Brush lamp which was used last night was patented several years ago. It burns a stick of carbon twelve inches in length, three-eighths of an inch square, and will, it is asserted, last from nine to twelve hours, the sticks costing 24 cents each. The arrangement of the machinery which produces the electric light consists of a couple of large magnets, wheel shape, which being put in rotation, currents of electricity are produced in coils of copper wire, which are wound around the magnet. These wires pass through the commutators to the lamps, where the current, being broken at the end of the carbon points, a brilliant light is produced."

He talked as if he had a "frog in his throat," but he was only hoarse; a single bottle of Dr. Bull's Cough Syrup relieved the trouble at once. 25 cents.

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

HEPATINE.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

LUNGS

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. $10,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Prussic Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who are living to-day with but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Peabody, as well as those of other remarkable cures in our book, free to all at the drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. Take no Troches or Lozenges for Sore Throat, when you can get GLOBE FLOWER SYRUP at same price. For sale by all Druggists.

BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. DR. PEMBERTON'S STILLINGIA or QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer.

$10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.

Price by all Druggists $1.00.

DIAMONDS

IN SOLID GOLD MOUNTINGS.

ONE DOLLAR THE WONDERFUL LEFEVRE DIAMOND ONE DOLLAR

Lefevre Ring, $1. Set of Studs, $1. [The Shah] Stud, $1. Lefevre Ear Drops, $1.

THE ONLY PERFECT FAC-SIMILE OF THE REAL DIAMOND IN THE WORLD.

Pronounced by the Academy of France that *M. Lefevre has really obtained artificially the true diamond.* The basis of these gems are pure crystals found in the Sierra Nevadas, from whence they are exported to the Lefevre Laboratory in Paris, France, where they are submitted to a chemical and voltaic process,

BY WHICH THEIR SURFACES ARE COVERED WITH A COATING OF PURE DIAMONDS,

imparting to them all the BRILLIANCY, HARDNESS, and refractive qualities of the natural diamond, and making them as desirable for Wear, Brilliancy and Beauty, as the very finest stones themselves. The Ring, Studs, and Ear Drops, as displayed in this announcement, are mounted in engravings of SOLID GOLD MOUNTINGS, CONTAINING THE WONDERFUL LEFEVRE DIAMOND, warranted by [illegible] Mint stamp.

ON RECEIPT OF ONE DOLLAR we will send free, by REGISTERED MAIL, to any address in America, either article as above represented. "Book on Diamonds," with illustrations of artistic Diamond Jewelry in solid (14 k.) gold, mailed free.

I have seen many imitations of diamonds, but never say that could equal the Lefevre Brilliant.—M. ELLROY, Stamford, Conn.

HOME REMEDY

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THING

TRADE MARK. TRADE MARK

(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Nothing did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. —— wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless those old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last Winter proved of lasting benefit to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. AS A TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully,

Louisburg, N. C., May 22, '78. T. J. STOKES

AS A TONIC AND ALTERATIV

MOORESVILLE, IREDELL Co., N. C.

Being desirous of adding my testimonia to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak, complection sallow, and now I am WELL, Respectfully your friend,

Sept. 26, 1878. MRS. H. T. BROWN.

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS. JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never had any sign of Scrofula since. I am again, A friend, believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness left me, before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully, JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction. While my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and respectfully, JOHN BUIE, Box 141, Fayetteville, N. C.

For my personal reliability, I refer, by permission to Rt. Rev. Thos. Atkinson, D. D., North Carolina; Geo. A. Foote, M. D., Warren, Co.; Hons. J. J. Davis and C. M. Cooke Franklin Co.

LOCAL BRIEFS.

——Good judges assert that the streets were never in a worse condition than they were yesterday.

——Pomp Bryan, the bill-poster, yesterday decorated the bulletin boards with chromos of Tony Denier.

——One quartette of young gentlemen paid ninety-six calls on New Year's day, beginning at noon and winding up the performance at midnight.

——A sportsman of this city, whose enthusiasm is only equaled by his success, returned from a hunt yesterday, having killed 208 quail in three days.

—It is reported that a life-saving station will be established on Fayetteville street near the postoffice, at which place it is stated that some pedestrians have already lost their lives.

——Energetic and progressive are fitting terms to apply to the popular and successful firm of Messrs. Stronach & Allcott, who are handling heavy consignments of corn, meal, oats, &c. Read notice.

——The members of Gideon's Band, who had such a jolly masked parade Christmas day, are asked to meet at the guard house, to elect a captain, rehearse, and prepare for a parade on next Monday, which is termed "Old Christmas."

——Mrs. Wm. Woollcott has removed her millinery store to the Prairie building, where she can better accommodate her largely increasing trade among the fashionable of the city. This is a step onward and upward.

——The pastors of the different churches are requested to meet at the Lecture room of the First Presbyterian Church, on Saturday afternoon, at 4 o'clock, to arrange the time and places for the union meetings of the Week of Prayer. It is hoped that every church in the city will be represented.

Cook's Hotel.

Col S. P. Horton, one of the cleverest and most generally agreeable gentleman in the State, has taken charge of the Cook Hotel, on Davie and Wilmington streets, and will open regularly on Monday next.

Removal.

Otey, the skilled barber, has fitted up in splendid style the rooms under the Bagley building, and says he is better prepared than ever to accommodate his numerous patrons, to whom he expresses many thanks for past favors.

Convict Discharged.

There will be discharged from the penitentiary to-day Drew Whitley (col.) convicted in Green county of larceny and sentenced to the ... tiary March 1877. He is about penitentiary-old, 5 feet 7 inches high, ... about 41 years when admitted 149 ... and weighed ... lbs.

Moved to ... Attractive Store.

The poetical advertisement of Mr. C. C. Clawson, that clever dealer in chromos, pictures of all kinds, window shades, etc, appears to-day. There are many things in the establishment which are attractive and useful about a house. The brackets and fancy wood work done by Mr. Clawson, are superior to any articles of the kind ever seen here. The store should be visited and purchases made of articles needed in this line.

Messrs. R. F. Jones & Co.

Few firms can show a better record for energy, fair dealing and business tact than the above. They transact a leading business in groceries, and their wholesale liquor trade is second to none in the State. The success of the house is due to careful management and sound judgment. Mr. R. W. Belo, the chief clerk and accountant of the conbern, is a valuable man in his position. The public may always expect the best of treatment from this house.

The Supreme Court.

This court convenes next week. The new Judges, Smith, Ashe and Dillard, will sit on the bunch. It is reported that, owing to illness, Judge Ashe will not be present at the opening of the term. The first day will be devoted to the examination of the applicants for license, of whom there are quite a number. The efficient clerk, Maj. W. H. Bagley, has all things in readiness for the beginning of the term, and the dockets are prepared. The cases will be called in the following order: 1st. week—1st District; 2nd and 3rd weeks—3rd, 4th and 5th Districts; 4th and 5th weeks—6th, 7th and 8th Districts; 6th and 8th weeks—9th and 2nd Districts.

Personals.

Professor A. R. Ledoux, of the Chemical Central Station, at Chapel Hill, is at the Yarboro.

Mr. Julian S. Carr, of Durham, is registered at the same hotel.

Mr. C. M. Parks, one of Hillsboro's prominent merchants is in the city.

Messrs. Swift Empie and A. G. Ricaud, of Wilmington, are in the city, and will apply to the Supreme Court for license to practice law.

Two gentlemen of the medical profession, have both taken up their residence in this city id the past few days. These are Drs. J. A. Sexton and T. L. Hill, both formerly of Apex. The first will practice here, while the latter goes into the drug business, as a partner in a firm here.

Rev. Dr. Leftwich, who has just resigned the pastoral charge of the Central Presbyterian Church, of Atlanta, Ga., to accept the call of the First Presbyterian Church of Baltimore, is in the city, the guest of his brother in-law, A. M. McPheeters, Esq. Dr. Leftwich is regarded as one of the ablest and most eloquent preachers of the South.

W. A. Davis Esq., proprietor of the Oxford Torchlight, the most active newspaper man in the State, is in the city. From the present outlook he will be the reading clerk of the next House of Representatives. His pleasing manner and natural ability will commend him to the favorable consideration of the members of the House.

Salem Agricultural Works.

This manufactory of farm machinery is winning a high reputation by reason of the excellence of its productions. The saw mills are spoken of as being very superior. A reference to the large and attractive advertisement elsewhere, will show what a variety of articles are made at these works. All goods are warranted, and customers are pleased with the way in which orders are filled.

Festival.

Remember that this evening the ladies of the congregation of Person street Methodist church will have a festival to raise funds with which to furnish the parsonage. The store lately occupied by Hardin, Grimes & Co., will be used on this occasion. The ladies will be prepared to furnish visitors an elegant repast, of both substantials and delicacies, and will also have a bountiful supply of splendid Cherry-stone oysters. It is hoped that entertainment will receive a liberal patronage and that the ladies will reap a rich reward for their labors, as they well deserve.

Victor Fire Engine Company.

The following officers of this Company have been elected to serve for the year 1879:

Captain, Jas H Jones.
Lieutenant, A Hunter.
Chaplain, B Wall.
Treasurer, Wm Mitchell.
Recording Secretary, Sion R Love.
Financial Secretary, Merrimon Wortham.
Hose Director, Thos Burgess.
Assistant Hose Director, Joseph McAllister.
Pipemen, Geo E Perry, Henry Stevens and Dempsey Fort.
Engineer, Webster Dunston.
Assistant Engineer, J J Alston.

James H Jones has been foreman of this company for twelve years.

The company has a high reputation here and is probably as efficient as any colored company in the South. The citizens and property-holders look with great favor upon it, and the members always do their duty at all times and in all seasons.

State Guard News.

It is understood that the meeting of officers of the State Guard, called to assemble here on the 10th instant, will be large. The railways will pass the officers at reduced rates, it is understood. The Wilmington & Weldon and the Raleigh & Gaston railroads have kindly agreed to pass delegates at 3 cents per mile, each way. The other railroads will, it is supposed, make the same reduction.

The officers will appear in uniform, and the object of the convention is to prepare a memorial setting forth the merits of the Guard, its adaptability to the needs of the State, and its capacities in a military point of view. The matter of aiding State troops is now receiving special attention all over the Union, and it is in view of the necessity for proper action as to the matter that the meeting is called.

That energetic officer, Adjutant General Jones, will be here in a few days. The report of his offic al work, as well as of the status of the Guard is now in the hands of the printer. It will show a vast improvement in the organization, efficiency and numbers of the troops, which now form a force of nearly 3,000. The report will soon appear.

The Representatives in Congress from this State, will doubtless be asked to work in aid of the plan of increasing the appropriation made by the U. S. to ... 000.

Subterranean Fires.

The great subterranean fire in the Bulter colliery, at Pittston, Pa., which has been burning since May, 1877, has progressed 900 feet toward the cut off, when was sunk 1,000 feet in length, from 40 to 60 feet deep, and from 25 to 50 feet wide, to stop its progress toward the valuable land of the company. From the smoke and steam issuing through the cave holes it is calculated that the fire is now within 150 feet of the cut-off. The fire has burned over an area of about thirty acres of principally worked-out chambers, leaving nothing but ashes beneath, and the destruction of everything on the surface, which is being constantly torn up by the caving in which frequently exposes to view the raging element below.

Law's Card.

We warmly thank our numerous friends in Raleigh, Charlotte and throughout the State, for their liberal patronage this Christmas. We rightly estimated the cultured taste of North Carolinians in introducing the elegant and exquisite "Japanese" wares. Our stock has been entirely exhausted; our fine selections of "electro-plate ware," too, were abundantly justified, and we will have, at once, to replenish our store. Fine vases, toilet sets, china and glass goods actually "sold themselves." We still have numerous calls for "Japanese," and in a few days we will have another splendid lot, already selected.

Law's Silver and China Store,
Raleigh and Charlotte.

Senatorial Election.

POOLS WILL BE SOLD on the Senatorial election at TIM LEE'S CLUB HOUSE, commencing on Saturday evening Jan. 4th, at 7½ o'clock, and will be continued each evening until the favorite is elected. The friends of Gov. Vance, Judge Merrimon and all the Black Horses are cordially invited to be present.

Rare Opportunity.

Readymade clothing at cost, M. Rosenbaum & Bro., No. 41 Fayetteville street. We have concluded to devote our time to the selling of dry goods only. We therefore offer our large stock of readymade clothing at net cost for cash. We don't advertise often, but when we do we mean every word we say.

M. ROSENBAUM & BRO.

Be Happy.

While life is lasting enjoy pleasure's gift while you may, smoke the Oak City cigar and be gay. To be had only at Mendel's Capitol Cigar Store at 5 cents a piece.

The Seven Spring Iron and Alum Mass for Sick and Nervous Headaches.

We will make any person a present of a nice $10.00 Bible, who suffer with sick or nervous headache, if they will use the "Seven Springs Mass" according to our directions, and then conscientiously say that it will not relieve it. This is a bona fide offer, and we mean what we say. We will not require any unreasonable conditions.

Address, LANDRUM & LITCHFIED,
Abingdon, Va.

P. S.—Headache is the least complaint for which this remedy, the "Iron and Alum Mass" is efficient.

For sale by Wm. Simpson, Pescud, Lee & Co., and F. H. Heartt, Raleigh, N. C.

Humbugs.

There are people who advertise who are humbugs, but this is an exception Messrs. A. C. Sanders & Co., went to sell 1 fine top buggy, 1 two-horse dray, 1 two-horse wagon, 1 four year-old mare, fast in harness and an elegant saddle critter.

At Lumsden's.

Just arrived one thousand flower pots, one thousand gallons stone ware. Pistols (new model Smith & Wesson,) guns, powder, shot, caps, &c. Table and pocket cutlery, (Rogers warranted.) Scissors, shears &c. Also the best stock of stoves, plain and fancy tinware ever brought to this place can be found at Lumsden's. He also makes a specialty of repairing guns, pistols, locks, sewing machines, bell hanging &c. Tin roofing done as cheap as shingles and warranted. Don't forget Lumsden if you want anything in the metal line.

Unheard of Bargains!

AT THE INDEFATIGABLE ENDEAVORS TO PLEASE THE PUBLIC. SO HERE GOES.

Ye muses nine, inspire my pen,
To sing of Fayetteville streeet, No 10,
Who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No. 10 is all and all.
Of other houses youhear them talk;
In Fayetteville street just take a walk,
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambaquins fine,
Will make your room and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids your all adieu
And wishes a happy Christmas too.
